

INSTRUCTIONS TO CONNECT TO THE CHAT SYSTEM

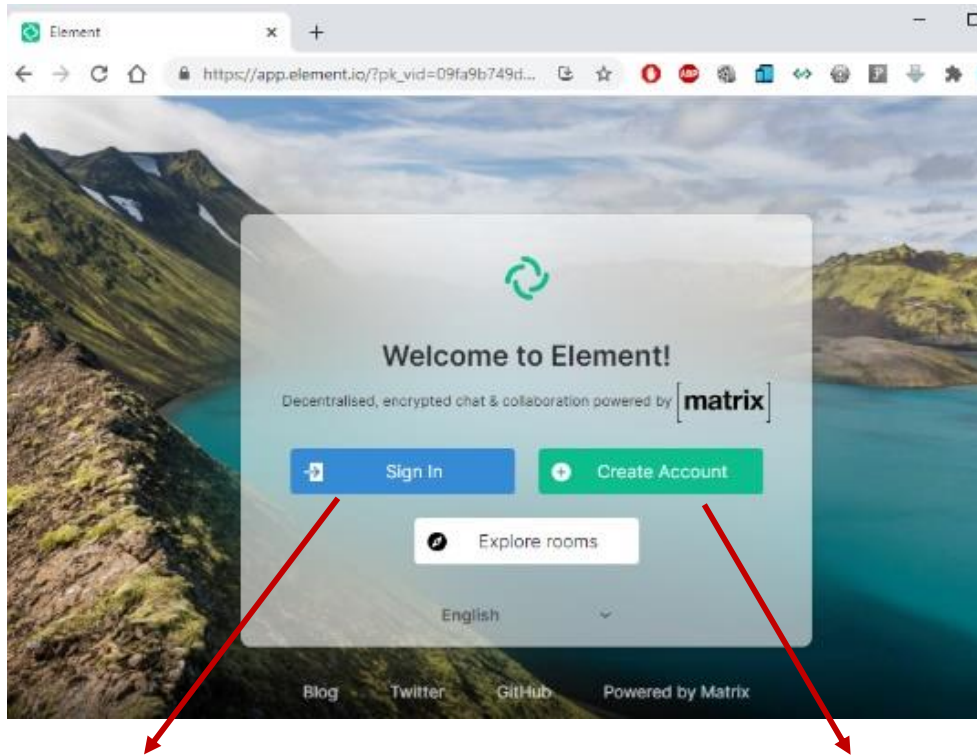

v.2.0 – mar/23

Forewords.

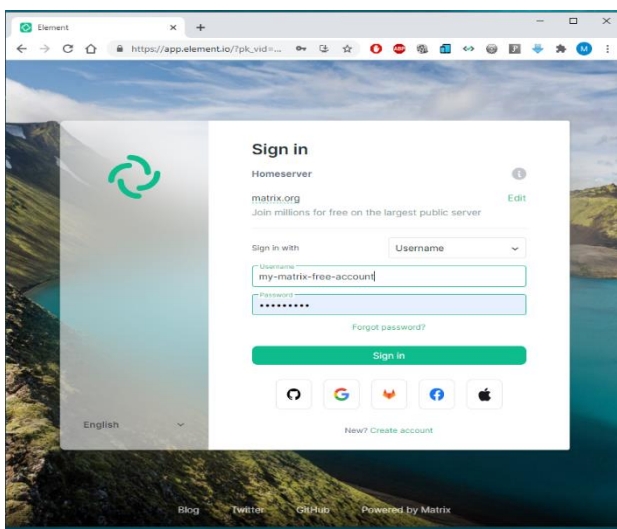

RLVS chat system will use matrix.org. [Matrix] is decentralized open chat system whose main client is browser-based and named element. To log to RLVS chat, you need (i) to create an account on one of the server of [Matrix], (ii) find the chat rooms in RLVS community and (iii) connect to this room.

1. Create your account on [Matrix]

1. Connect to matrix: <https://app.element.io/#/login>
2. Join MATRIX-RLVS server

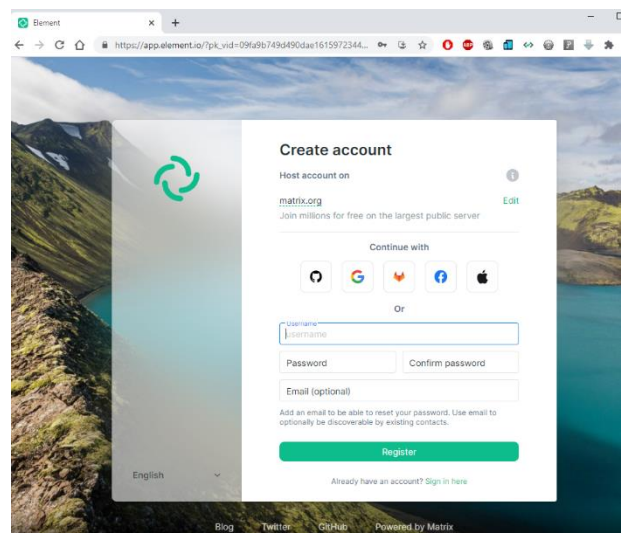

You already have a Matrix account:
"Sign In"

You want to create a new account:

"Create Account" by default on matrix.org

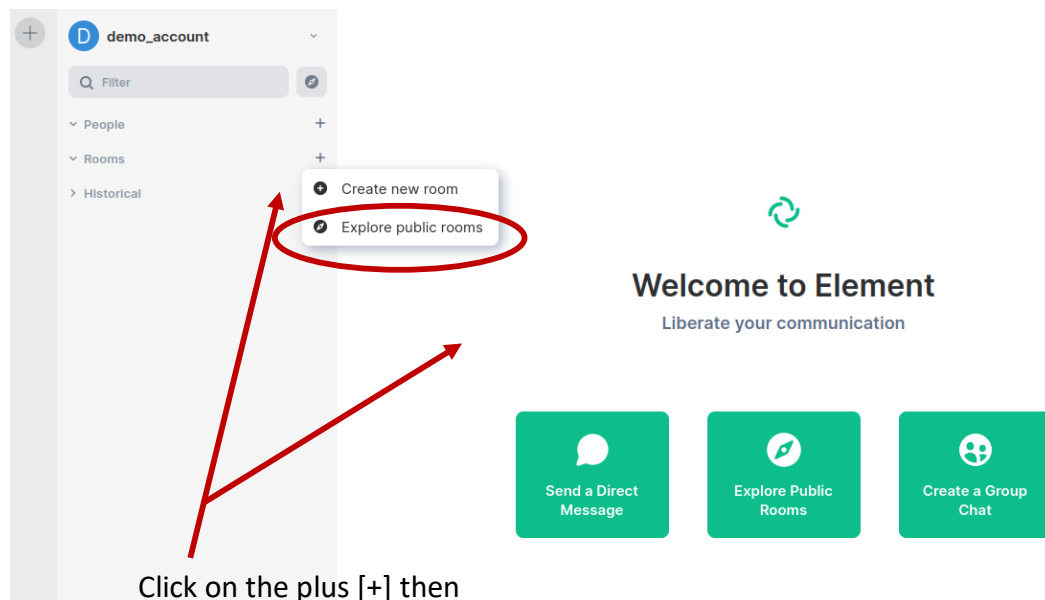

Click on **"EDIT"** then select "other home server",
enter **"https://matrix-rlvs.univ-toulouse.fr"** and **"continue"**
enter your **"username"** and a secure
"password" then **"register"**

2. One room to rule them all: rlvs-welcome:univ-toulouse.fr

The room #rlvs-welcome:univ-toulouse.fr has been created as an access point for all the users. Join it as follows:

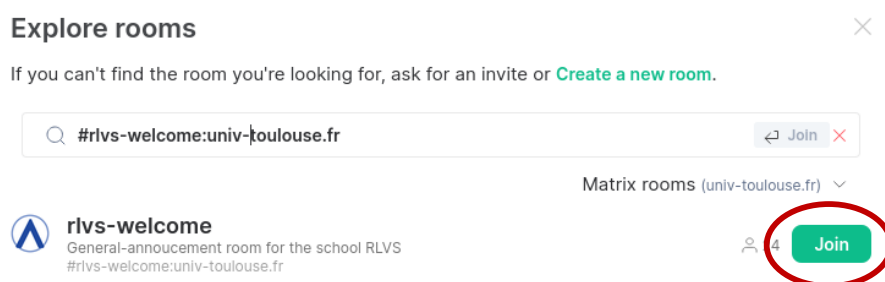

1. Explore the public rooms of univ-toulouse.fr

Click on the plus [+] then

choose “Explore public rooms”

2. Search for the rooms on the univ-toulouse.fr server (select it first if your [matrix] account is not at univ-toulouse.fr)
3. Click Join ... you are in !

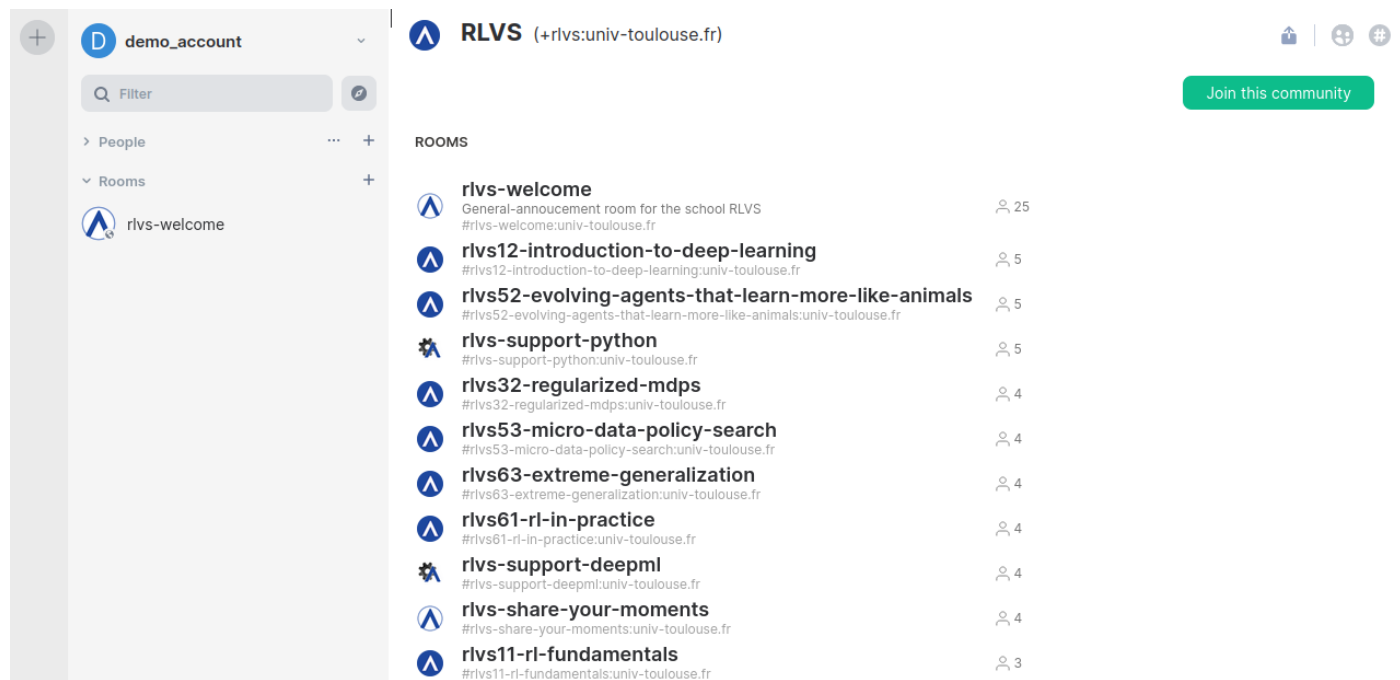

You can also directly join the rlvs-room with the following url: <https://matrix.to/#/#rlvs-welcome:univ-toulouse.fr>

3. Browse RLVS community

All the chat rooms used for RLVS are gathered in the community `+rlvs:univ-toulouse.fr`.

The [matrix] link is directly available in the `#rlvs-welcome` room. The easier is that you click directly on it. Alternatively, you can reach it through the following url: <https://matrix.to/#/+rlvs:univ-toulouse.fr>.

Click “**join the community**”.

The community is gathering all the official rooms of the school, and all participants. You can now browse the available chat rooms and search people in the audience.

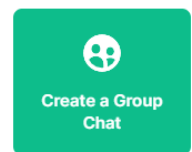

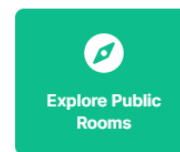

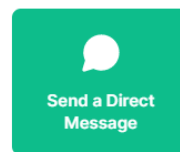

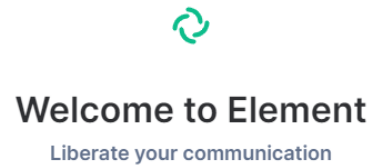

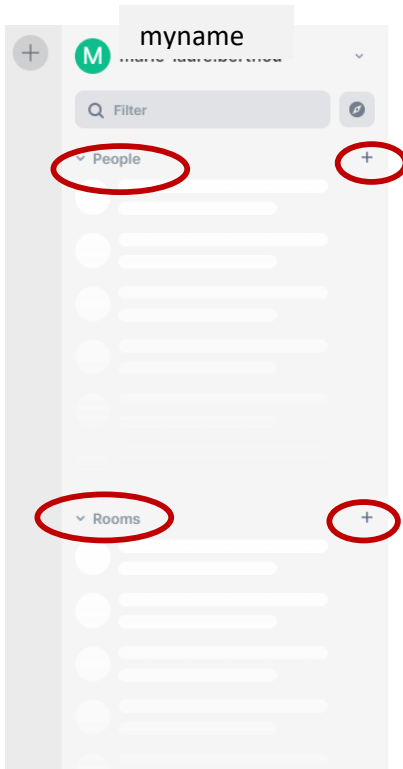

Each session corresponds to a room. Sessions are indexed by the day and session number in the day, with a format “`rlvsXY-title`”, and blue icon.

Additional rooms have been created for discussions aside the talks. Title are chosen to be explicit. They are labelled with white icons.

Support rooms are also available for technical topics, labelled with gears. For now, technical topics are : python, math and deepml.

Feel also free to create your own rooms and invite participants.

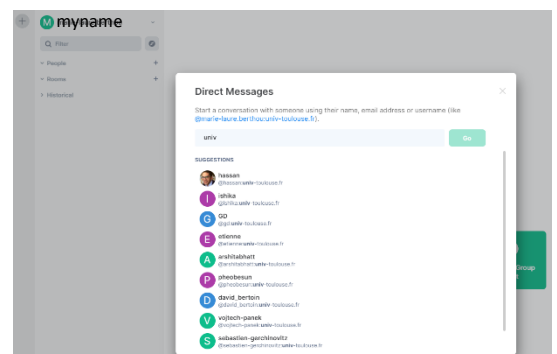

4. Connecting to [matrix] community, creating rooms, and more.

PEOPLE

Clicking on “**people**” “+” → you can search rlvs event participants who have created a matrix-rlvs-account (*enter a name or email*).

To chat with someone choose it and “go” → a room is created. The people you have a “chat room” with are listed below “people” button.

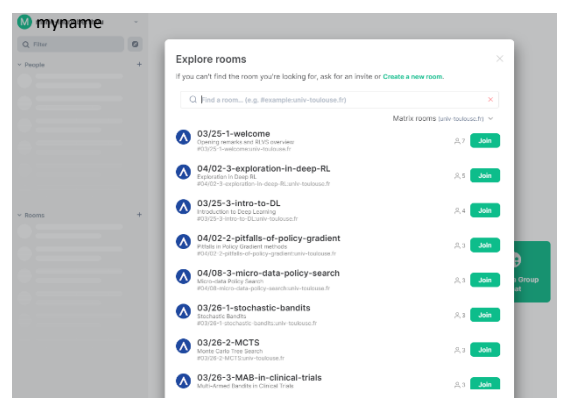

ROOMS

For each school session a specific room has been created.

Clicking on “**Rooms**” “+” and “**Explore Public rooms**” → you find all the rlvs event rooms.

You can join any rlvs room you want. Once you have started to chat within a room, it will be listed below “Rooms” button.

You can also create your specific room if needed.

Enjoy your [matrix] RLVS chat.
