

Welcome to the Reinforcement Learning Virtual School 2021

Sponsors and supporting institutions

We are very grateful to our official sponsor, DeepMind.

This event is organized by ANITI with the support of all these institutions:

Toulouse AI Institute: ANITI

- Located in Toulouse, one of the 4 French interdisciplinary AI institutes, with Grenoble, Nice, and Paris.
- Around 200 researchers and 50 partners.
- 3 main missions: scientific research, training, and economic development related to AI.

- Hybrid AI: integrate data-driven machine learning techniques with models for expressing constraints and performing logical reasoning.
- 3 research programs: acceptable AI, certifiable AI, collaborative AI.
- 2 strategic application sectors: (1) intelligent mobility and transport, and (2) robotics/cobotics for the industry of the future.

Practical information

Zoom Q&A

Questions directly answered by TAs or forwarded orally to the speaker during question breaks.

Matrix chat rooms (for longer discussions)

Short demo after RLVS overview.

Social interactions

We will try our best to make this event lively!

Do not hesitate to create chat rooms on Matrix or virtual meetups on Whova.

Recording of talks

Videos of talks will be uploaded on the website and the github mirror shortly afterwards (if authorized by the speakers).

Certificates of registration

We will issue certificates of registration (not attendance) for registered participants after the school. Details soon.

Other questions?

See FAQ or contact us on Matrix at #rlvs-ask-organizers-anything.

Have a great RLVS!
